

DISCOVER HOW EMPLOYERS JUST LIKE YOU ARE ATTRACTING & RETAINING GREAT WORKERS BY HAVING THIS NEW INNOVATIVE & AFFORDABLE BENEFIT

Want to provide healthcare benefits to all of your employees but can't afford it? Too much turnover within your hourly or part-time workforce? Looking for ways to improve employee satisfaction? National Telemed Business Solutions is here to help.

National Telemed Business Solutions offers a true benefit at a low monthly cost with no out of pocket costs for your employees and their families.

We can help you if you:

- ✓ Don't offer health benefits to any employees
Have part-time employees or contractors who are not eligible for health benefits
- ✓ Offer high-deductible healthcare plans (we compliment by saving employees big bucks)
- ✓ Are located in remote or rural areas and lack easy access to healthcare
- ✓ Offer insurance that does not include telemedicine

What's the problem?

Employers are struggling to retain quality employees amidst the skyrocketing cost of healthcare. Few options exist for the uninsured or under insured, that help mitigate unnecessary expenditures associated with healthcare.

Almost 75% of all ER/Urgent care visits can instead be handled by a consultation with a physician.

Small and Mid-Size employer groups need practical cost effective solutions for healthcare cost containment.

Most Employers would welcome a solution for their employees if cost could be contained, and there was a true benefit for the employee.
